
DIN-RAIL MOUNTED SINGLE PHASE KWH METER

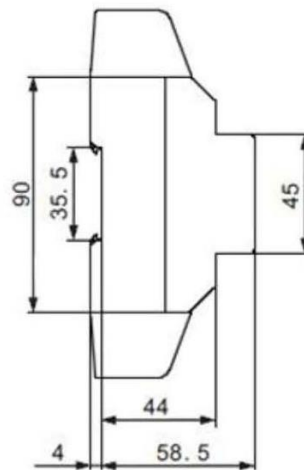

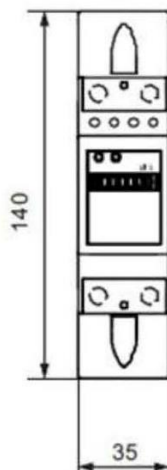

MODEL : D1M - 225 SERIES

Technical Specification :

Description	: Static watt-hour single phase meter
Voltage	: 1 x 230 VAC ; 50 Hz
Basic Current	: 5 A
Maximum Current	: 60 A
Accuracy	: ± 1 % Class 1
Power Consumption	: Less than 0.2 VA
Starting Current	: Less than 0.4%I _b
at Power Factor 1	
Temperature Range	: -20°C - +55°C (Operating)
Counter	: LCD-type register with min 6 digits and 1 decimal
Miscellaneous	: Passive impulse contact corresponding to "SO" Conditions of DIN 43864: 18 V to 27 V, max. 27mA
Mounting	: Onto support rails corresponding to DIN EN50022
Standards	: Corresponding to IEC 61036 and EN62052 CE marked

Dimension :

Swaden
